

Alex Comach

Personal Statement

A self taught programmer looking for an apprenticeship in Software and data. I am motivated to use my problem solving skills that I have developed whilst learning to program. I'm always looking to improve my skills and wishing to learn as much I can, which can be best obtained through real life experiences.

Education

Just IT Software Development Skills Bootcamp

January 2025 -

8 week course where it I will learn about HTML, CSS Javascript, Database design and Python.
